DRAMATIC AND POETICAL WORKS.
COLLECTED LIBRARY EDITION.

"The *Patrician's Daughter* is an oasis in the desert of modern dramatic literature, a real emanation of mind. We do not recollect except the *Torquato Tasso* of Goethe. The play is a work of art in the same sense that a play of Sophocles is a work of art: it is one simple idea in a state of gradual development. . . . The *Favourite of Fortune* is one of the most important additions to the stock of English prose-comedy that has been made during the present century."—*Times*.

THE FIRST EDITION OF SHAKESPEARE, 1623.

An exact reproduction of the rare original, in reduced facsimile, by a photographic process.
With an Introduction by J. O. HALLIWELL PHILLIPS, Esq.
"To Messrs. Chatto and Windus belongs the merit of having done more to facilitate the critical study of the text of our great dramatist than all the Shakspeare clubs and societies put together. A complete facsimile of the celebrated first folio edition of 1623 for half-a-guinea is at once a miracle of cheapness and enterprise. Being in a reduced form, the type is necessarily rather diminutive, but it is as distinct as in a genuine copy of the original, and will be found to be as useful and far more handy to the student than the latter."—*Athenæum*.

FIFTY YEARS of MY LIFE.

By GEORGE THOMAS, EARL of ALBEMARLE. With Portrait of the First Earl, engraved by Jeans.

"Chance having willed that Lord Albemarle should be successively soldier, traveller, author, courtier, politician, country gentleman, man of fashion, county member, and peer.....that he should live familiarly with a host of brilliant contemporaries, and be able in his seventy-seventh year to talk and write about them as fully and vividly as if he were narrating the events of yesterday in his prime."—*Quarterly Review*.

"This book is one of the most amusing of its class; it is written in a cheerful, good-humoured spirit; it contains a good many capital anecdotes; and it will preserve the traditions of one of the best old Whig families in England..... These Reminiscences have the charm and flavour of personal experience, and they bring us into direct contact with the persons they describe."—*Edinburgh Review*.

"The whole book retains its interest from first to last..... Few men have seen so much of men and manners in so many parts of the world, and to none has it been given to relate the impressions of a busy life in so gentle and cheery a spirit."—*Times*.

MY CIRCULAR NOTES: Extracts from Journals,

Letters sent Home, and Notes written while Travelling Westward Round the World, from July 6th, 1874, to July 6th, 1875. By J. F. CAMPBELL, Author of "Frost and Fire." [This day.]

"We have read numbers of books of travel, but we can call to mind few that have given us more genuine pleasure than this. A more agreeable style of narrative it is hardly possible to conceive. We seem to be accompanying him in his trip round the world, so life-like is his description of the countries he visited."—*Land and Water*.

"Something of an artist, and still more of a geologist, an authority on folk-lore, and a shrewd observer of national peculiarities, his comments, even among the most familiar scenes, are rarely without a certain humour and originality. Altogether there is much more of the solid and the gay in these volumes than appears at the first glance, and not a little quaint fun in the sketches by the way which illustrate them."—*Graphic*.

MANDALAY to MOMIEN: a Narrative of the

Two Expeditions to Western China, of 1868 and 1875, under Colonels E. B. SLADEN and HORACE BROWNE. By JOHN ANDERSON, M.D. Edin., F.R.S.E. With numerous Illustrations and Maps. 8vo, 21s. [This day.]

"A pleasant, useful, carefully written, and important work; it deserves a wide circulation among the general public."—*Athenaeum*.

"Dr. Anderson, by his handsome, well-timed, entertaining, and instructive volume, has done much to renew the interest felt not long since in the destinies of Upper Burma, and the chance of British progress in Western China."—*Academy*.

ANGOLA and the RIVER CONGO. By JOACHIM

Book Second.—The Doctrine of the Celestial Sphere and the Theory of Orbital Revolution.

Book Third.—The Solar System and the Theory of the Stellar Universe. The mixed Doctrine of Parallax and Aberration.

Book Fourth.—Comets and Cometary Orbits.

Book Fifth.—Theories of Light. The True Nature of Light. The Wave-Theory of Sound, and Manifestations of the various Forms of Force.

THE CIRCLE AND STRAIGHT LINE.

By JOHN HARRIS.

In Four Parts, contained in 1 vol., and 1 vol. of Plates.
(NOTE.—The volume of Plates is also tabulated and indexed.)

Part I.—The Geometrical Relationship Demonstrated. *Magnitudinal Geometry.*

Part II.—The Construction of the Circle. *Quantitative Geometry.*

Part III.—The Elements of the Circle. *Theory of Curvature.*

Part IV.—Analysis of the Circle. *Decimal Cyclometry.*

Price, including the volume of Plates, 15s.

NOTE.—The foregoing works belonging to Natural Science are connected with those that follow, belonging to Ideal Science, by the same Author, inasmuch as they have a general purpose in common, which is, to show that the basis of sound Theology, namely, "The Revealed Truth of God," is the sound basis of all human Science, and that no secure or considerable progress can be made in the advancement of Science unless such basis be distinctly recognised and acknowledged.

WORKS BELONGING TO IDEAL SCIENCE.

By KUKLOS.

THEOLOGY AND THE SCIENCE OF GOVERNMENT.

To some extent this book may be described as a critical review of a review, namely, of the well-known review by Macaulay of Gladstone's Essay "On Church and State." The most important of the conclusions come to by the Reviewer are, together with the passages of the essay they refer to, subjected to careful examination; and, for the reasons fully stated, the doctrine of the Reviewer is rejected and that of the Essayist affirmed.

Price, in cloth, 3s. 6d.

NATURAL PHILOSOPHY AND DIVINE REVELATION.

In appearance this book is, for the most part, a critical examination of the system of the great American theologian, Theodore Parker. The system of Parker is selected, however, on general grounds, namely, as a good example (good, because of Parker's great ability and learning) of the general case where, the Bible being deliberately rejected as the basis of a religious system, an endeavor is made to support the superstructure of Christian morality and civilisation upon some other foundation. Price, in cloth, 3s.; in paper, 1s. 6d.

THE SCIENCE OF IDEAL THEOLOGY AS TAUGHT BY THE BIBLE.

(Or, according to the Title-Page, THE BIBLE READ BY THE LIGHT OF IDEAL SCIENCE.)

This book, reverently dedicated to the Supreme Head of the Christian Church, purports to explain the ideal meaning of the figurative language made use of in the Scriptures, and to make manifest the harmonious and consistent plan of the Bible as a progressive record of human education, and a progressive revelation of spiritual truth to man.

Price, in cloth, 2s. 6d.; in paper, 1s. 3d.

SPIRITUAL SCIENCE AND THE NATURAL WORLD.

This communication, on the relation of Christianity to Spiritual Science, is addressed to all who feel that the explanations contained in it are acceptable and serviceable to them.

Price, in cloth, 2s. 6d.; in paper, 1s. 3d.

POLITICAL ECONOMY AS A DIVISION OF SCIENCE.

For reasons briefly, but, it is thought, sufficiently set forth, the conclusion is arrived at that the subjects belonging to this department of knowledge have not hitherto been scientifically arranged. The purpose of this book is to point out the correct method of arranging them as a division of Science. The general arrangement is merely indicated in outline, but, for illustration, a few of the sub-sections are partly filled in; and in one instance—that of the labour question—under the heading "The Nation and the Labourer," the particular subject is especially examined at greater length.

Price, in cloth, 3s.; in paper, 1s. 6d.

The last four of the above works may be had in paper covers, as a set, price 5s.; and the five vols. belonging to Ideal Science, in cloth, as a set, price 12s. 6d.

THE POETRY OF CREATION.

By NICHOLAS MICHELL, Author of "Ruins of Many Lands," &c.

"A theme as sublime and stupendous as those themes which once occupied the genius of a Milton and a Dante. The 'POETRY OF CREATION' treats of angelic intelligences, of the mechanism of the heavens, of the solar system, of our earth, of man, of woman, of human body and soul. Such are the subjects, such Mr. Michell's powers of celebrating, in poetry of great beauty, the wonders, the glory, the loveliness of Creation."—*Sun* (Review of First Edition).
